

CORC Reports

It's not just about the data!

Making best use of
information collected.

The Process

FEEDBACK FROM MEMBERS

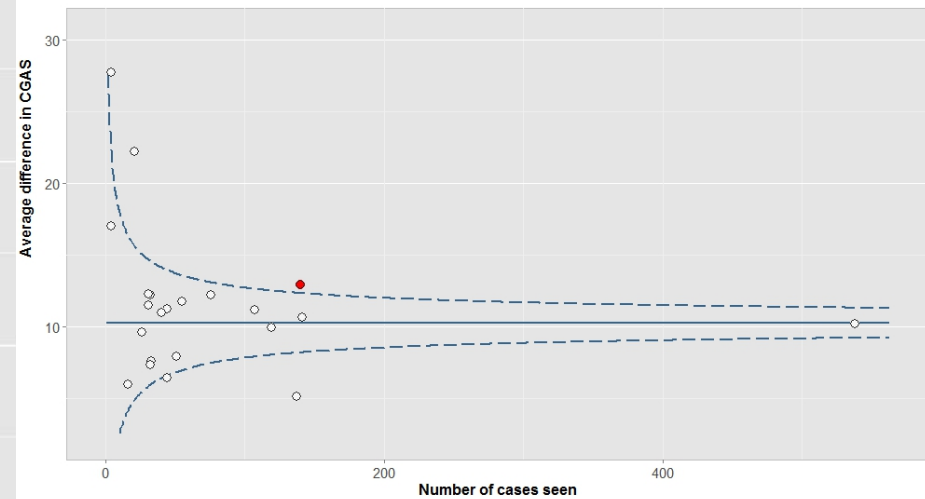

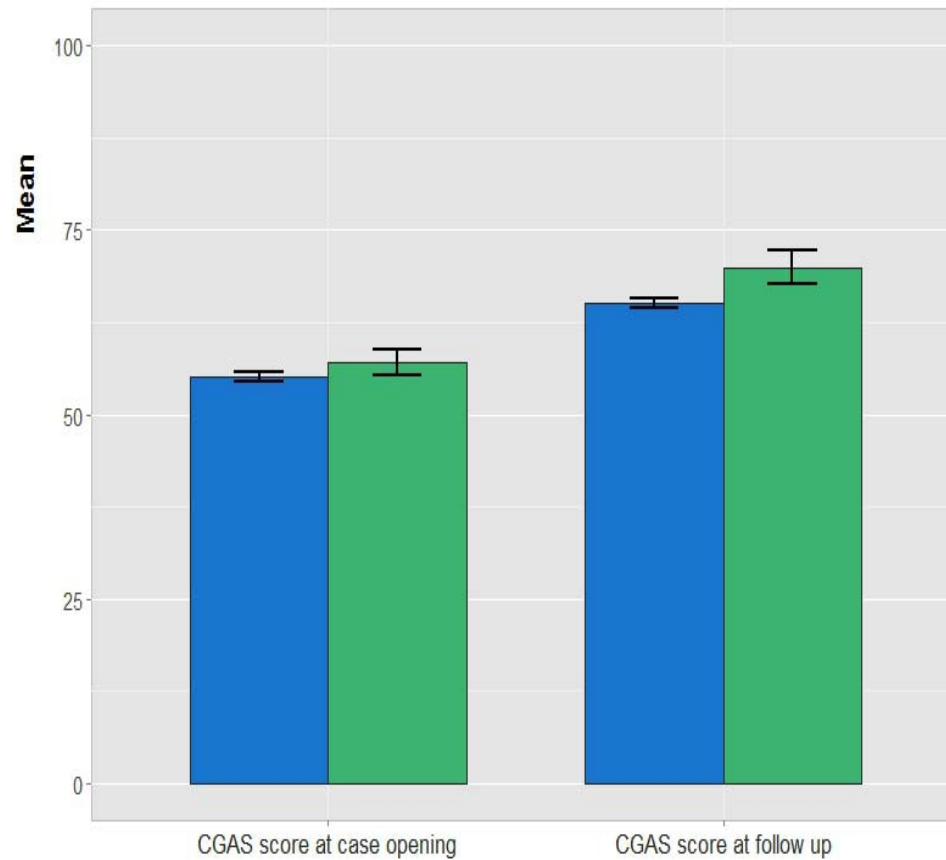

Sharing the CORC Reports

- Reviewed by senior managers and used as part of the commissioning process.
- Goes to managers and clinicians. It is used to go to commissioners.
- Feedback to teams with relevant information to that team.
- Report to commissioners comparing last years and this years report and actions for future
- Not much....gets shared between the data team

How does your service use the data?

Presenting Information

What would be your top items to see in a dashboard?

Who my service is seeing?

How well we are addressing their needs?

What do service users think of their support?

How good is our evidence on what we are doing and what could we be doing better?

Gender

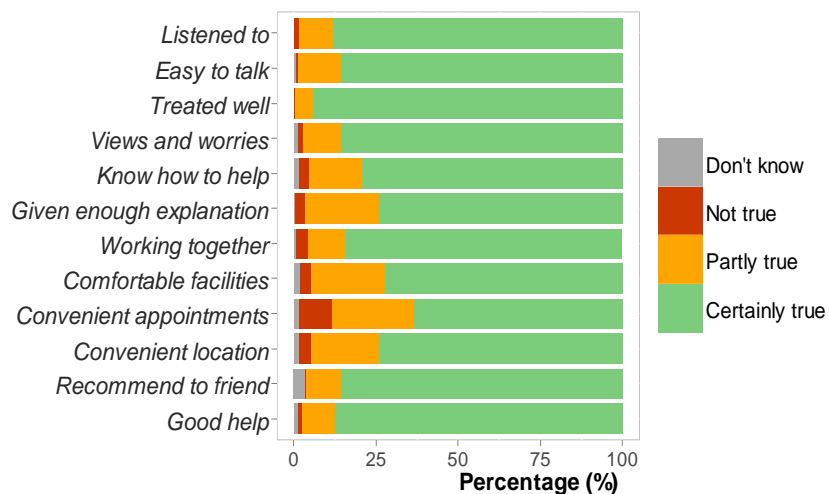

Ethnicity

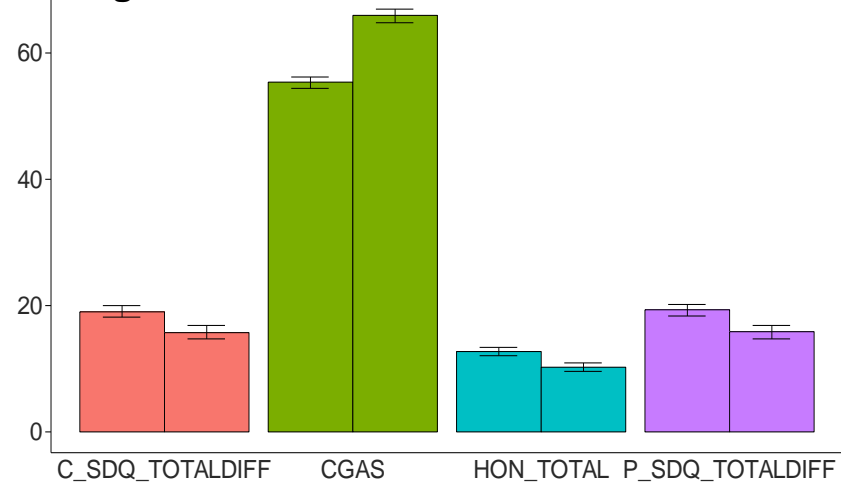

Age

Parents' satisfaction with service

Outcomes at 6 months Change between Time1 and Time2

Data Completeness

Variable	% with complete information
Gender	89
Age	81
Ethnicity	70
Status	84
Presenting problems	69
Paired Parent SDQ	23
Paired Child SDQ	20
Paired Teacher SDQ	7
Paired CGAS	36
Paired HONOSCA	19
Child CHI-ESQ	20
Parent CHI-ESQ	22

Contextual Information

- Number of clinicians per pop
- Caseloads
- Staff turn over
- Waiting times
- And....

Your chance to redevelop

We collect, explain and interpret outcomes with young people in mind

Every year over a quarter of a million children, young people and their carers attend Child and Adolescent Mental Health Services (CAMHS) in the UK. We want to understand what helps them best.

We collaborate to improve the quality of CAMHS nationwide

We are a grassroots learning collaboration of mental health professionals from [70 services](#) across the UK and Scandanavia committed to ensuring that young people and their families receive the best help possible. Since October 2011 we have been commissioned by the Department of Health to centrally collate and analyse outcomes from the [Children and Young People's Improving Access to Psychological Therapies](#) (CYP IAPT) initiative.
