A group of diverse young people are gathered outdoors in a park-like setting with lush green trees in the background. In the center, a young man with short dark hair, wearing a dark blue Nike Air jacket, is smiling and looking towards the right. To his left, a young woman with long dark hair is seen from the back. Other young people are visible around them, some looking in different directions. The overall atmosphere is bright and positive.

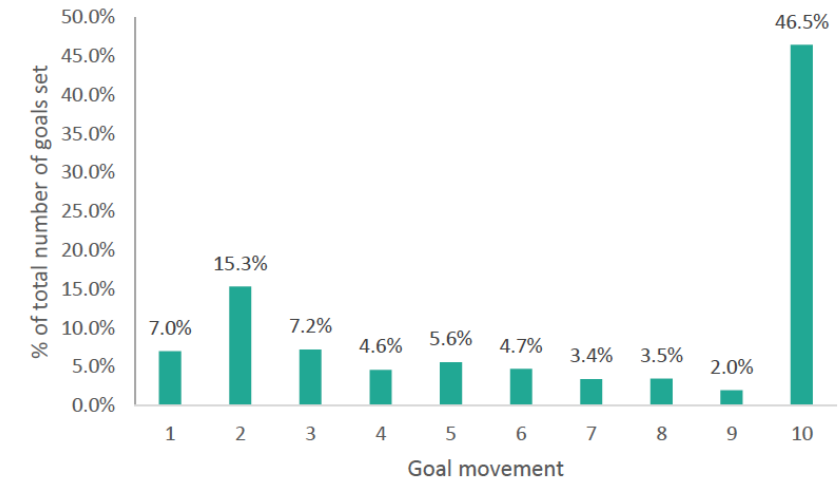

Figure 3.19: Main reasons why young people use online counselling

Figure 3.11 Total number of goals set by category

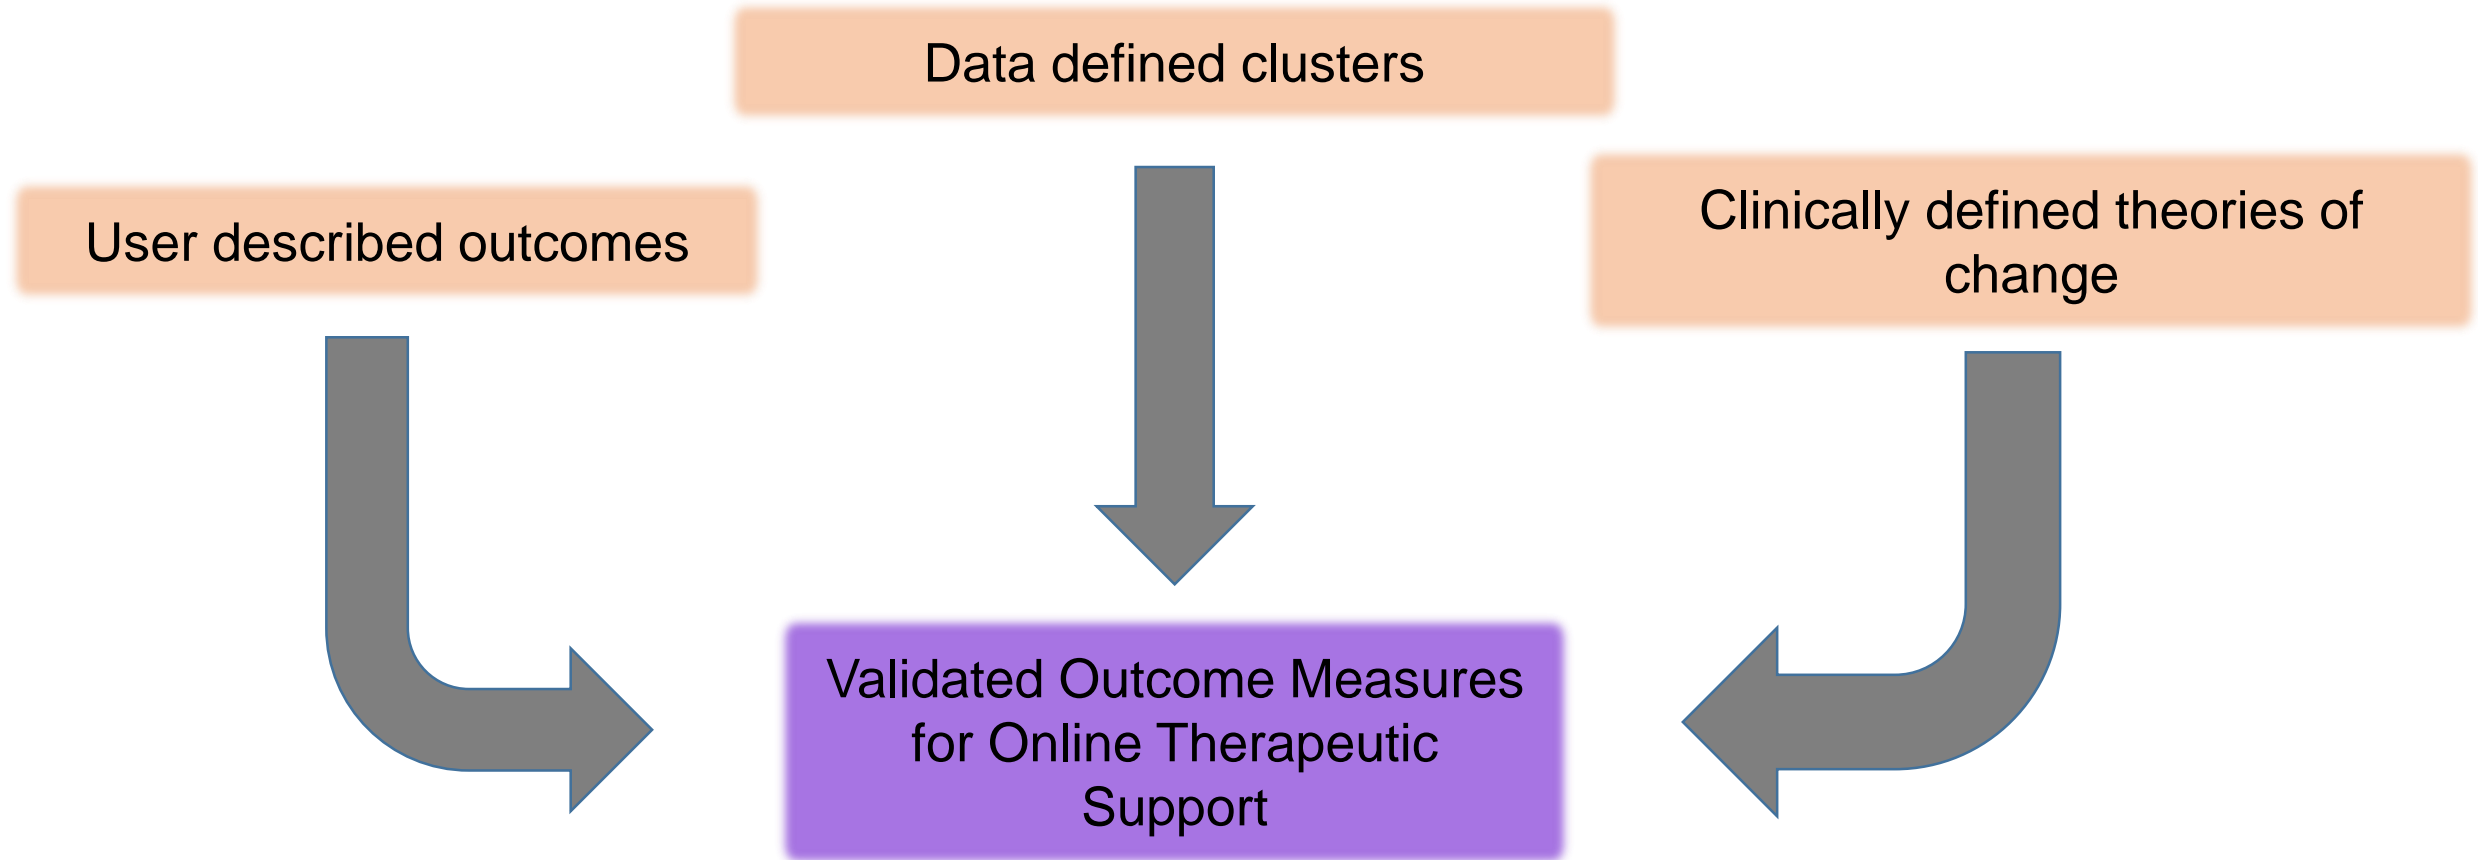

Figure 3.17: Kooth clients' response to the statement "Overall the session was right for me"

- Developing our integration model
- Embedding digital support into MHSTs
- Kooth as integrated early help in schools across spectrum of need
- Supporting School staff in managing emotional wellbeing of students

*“Maybe I don't want you to involve other services. Maybe I don't want you to DO anything. Maybe I just want someone to listen to me. Nothing more, nothing less. Being listened to goes a long way. Being listened to makes you feel like you aren't alone and being alone is literally the worst thing possible when you're in a state like this. I guess what I'm trying to say is Kooth is aware it is part of the system and it has its' policies but will still take note of the more implicit things people say to avoid the consequences of saying it explicitly, which other places won't do. I respect the people here for acknowledging the implicit things instead of ignoring it. Only Kooth does this. Only Kooth has the 'along side you' feeling”.*
