

Exploring the intersection: schools and mental health

Natasha White, Young Champion

Prof Miranda Wolpert, Director of CORC

Miranda and Natasha Talking points

Miranda to Natasha -

- What was your experience of being in the context of both the school, and support from mental health services?
- Do you feel that both school and mental health services have a shared view of what good looks like?
- How did people in those contexts track with you how things were going?
- What does whole school mental health mean to you
- Is there anything else you would want people to have in mind as they start putting the Green Paper proposals into action?

Natasha to Miranda -

- How does my experience chime with your research/evidence
